translations online.*

**Bad Segeberg is a diverse town where people from many cultures live together.** This diversity is a great enrichment, but it also brings challenges. To overcome misunderstandings and conflicts, we need people who build bridges, promote understanding, and strengthen dialogue.

### A Place of Encounter

At the Learning House, women with and without migration backgrounds, with and without religious roots, and with different life stories, abilities, questions, and hopes come together. Over the course of a year, they learn together in monthly meetings.

### Growing Together

Participants are trained as dialogue experts and multipliers and can apply their skills in professional or personal contexts. Upon completion, they receive a qualified certificate of participation.

### Join Us!

Become part of the project and help shape diversity actively.  
All women are welcome!
